### User Test

Hello! This is a prototype for an interactive game app that is related to waste disposal. The real app will most likely be advertised to use via a QR code in targeted locations on campus like the Memorial Union or Silo. In order to make this app better, please play it as if you are in one of those locations and interacting with the app on your own time. Your feedback will be immensely helpful in producing a better app and overall gaming experience. Thank you in advance for participating!

To begin testing, look under "Process Materials" on my portal and scroll down until you can see "Interactive Prototype 4". Then click on "Interactive Prototype 4" to open up the app. Please proceed to read the tasks below.

### Tasks

1. Find where you can play the game.
2. Click the "start game" button. If you are using a mobile device, turn your device in landscape position.
3. Try playing the game prototype and immediately write down any thoughts or reactions you have to the game.
4. Once you complete the game, click the button the redeem a prize.
5. Fill out the form and click submit (Note: Your information will not be saved. We ask you to do this to experience what the app would be like in reality).
6. After completing these steps, turn the page and fill out a questionnaire. Please answer questions as truthfully as possible.

## Stop. Think. Sort

### Questionnaire

1. At any time, was it frustrating or difficult to use this app? If so when and why did you feel that way?
2. What do you think is the purpose of this app?
3. When you are on campus, do you try to sort your waste in the most ideal waste bins?
4. Do you feel comfortable sorting your own waste on campus?
5. After playing this game, do you feel more comfortable about sorting waste?
6. Did this game teach you anything you did not already know? If so, what did you learn?
7. Would you recommend this game to a friend?
8. Do you have any suggestions to make the app better?
9. List any general comments you have about the app and game.
